PREFACE TO THE

MUNICIPAL ELECTIONS CODE

On November 17, 1997, the Board of Supervisors adopted this Municipal Elections Code pursuant to Section 13.100 of the San Francisco Charter (Ord. 429-97).

Prior to July 1, 1996, the effective date of San Francisco's 1996 Charter, the old Charter contained numerous provisions governing municipal elections. Some of those provisions were reenacted in the 1996 Charter, some were converted to ordinances, and some no longer exist in local law. Section 13.100 of the 1996 Charter directed the Board of Supervisors to adopt a Municipal Elections Code providing rules for nomination of elective officers, submission of measures to the voters, preparation and form of ballots, preparation and form of materials mailed to the voters, and imposition of fees. In addition to the elections issues described above, the Municipal Elections Code governs the activity of the Ballot Simplification Committee and the Citizens Advisory Committee on Elections.

The Municipal Elections Code was developed by consolidating the City's ordinances governing municipal elections that were previously scattered throughout the Administrative Code, and by reenacting some provisions of the old Charter. The Code references the applicable articles and sections of the 1996 Charter and the California Elections Code, to maximize the Code's usefulness to the public.

The San Francisco Municipal Code contains ordinances enacted through Ordinance 75-08, File Number 071531, Approved May 9, 2008. A legislative history, containing ordinance number and approval date, is located at the conclusion of most sections. The legislative history of ordinances approved after March 1999 also contain Board of Supervisors file numbers.

72 hours notice. No nominator may withdraw his or her nomination of a candidate after 5:00 p.m. on the last day of the nomination period.

Supporters who are not nominators but who authorize use of their name in the candidate qualification statement may withdraw this authorization by filing with the Director of Elections a signed and sworn statement of withdrawal at any time up until 5:00 p.m. on the last day of the nomination period. No supporter may withdraw his or her authorization after 5 p.m. on the last day of the nomination period. (Added by Ord. 429-97, App. 11/17/97; amended by Ord. 183-03, File No. 030652, App. 7/25/2003)

(a) When the Board of Supervisors considers whether to submit an ordinance or Charter amendment to the voters, the following rules shall apply:

(1) The Board of Supervisors shall be prohibited from considering or deciding whether to submit an ordinance or Charter amendment to the voters unless, at least 30 days before the date of the first committee hearing concerning the proposed ordinance or Charter amendment, the following materials are delivered to the Clerk of the Board of Supervisors and available for public review:

SEC. 320. NOTICE OF INTENTION TO CIRCULATE INITIATIVE PETITION; FILING FEE; SIGNATURES IN LIEU OF FILING FEE.

(a) At the time the proponent files a notice of intention to circulate an initiative petition, the proponent shall pay a fee, the amount of which is specified in Section 820 of this Code, to the Director of Elections. The fee shall be used to defray the costs incurred by the City Attorney to prepare the ballot title and summary as required by California Elections Code Section 9203. The fee shall be refunded by the Director of Elections to the proponent if, within one year of the date of filing the notice of intention, the Director of Elections certifies the sufficiency of the petition.

(b) At the time the proponent files a notice of intention to circulate an initiative petition, the proponent may submit a petition containing signatures in lieu of part or all of the filing fee required under Subsection (a). Any registered voter of the City and County may sign an in-lieu petition. Each valid signature contained in the in-lieu petition shall reduce the filing fee by the amount specified in Section 840 of this Code.

(c) Each in-lieu petition shall include a complete and accurate copy of the notice of intention to circulate an initiative petition. Each petition shall also include spaces for the voter's signature, printed name and residence address. The residence address shall include street and number within the City and County, or other adequate designation of residence so that the location may be readily ascertained. Across the top of each printed page there shall be printed in 12-point boldface type the following: "Petition in Lieu of Filing Fee for Notice of Intention to Circulate Initiative Petition."

(d) Each in-lieu petition shall include an affidavit signed by the circulator in substantially the same form as set forth in California Elections Code Section 9022 except that the affidavit shall declare that the circulator is a voter of the City and County and shall state the address at which the circulator is registered to vote at the time of execution of the affidavit. (Added by Ord. 429-97, App. 11/17/97)

SEC. 330. SIGNATURES IN LIEU OF FILING FEE; PROCEDURES FOR SUBMISSION.

(a) Upon receipt of the minimum number of signatures in lieu of filing fee required by Section 820 of this Code, or a sufficient combination of such signatures and pro rata filing fee, the Director of Elections shall provisionally accept for filing the notice of intention to circulate an initiative petition. Within seven days after the receipt of the petition, the Director of Elections shall notify the proponent of the petition of any deficiency in the in-lieu signatures submitted. The proponent may then, within seven days of notification, submit additional signatures in the same manner as provided in Section 320 of this Code or pay a pro rata portion of the filing fee to cover the deficiency. If the deficiency is not remedied by either method within seven days, the notice of intention shall not be accepted and any filing fee paid by the proponent shall be forfeited.

(b) The notice of intention to circulate an initiative petition shall be deemed filed upon the date that a sufficient number of signatures submitted in lieu of the filing fee have been verified, or the date upon which any deficiency has been cured.

(c) The proponent of an in-lieu petition may submit a greater number of signatures than required by Section 320(b) of this Code. The Director of Elections shall not be required to determine the validity of a greater number of signatures than that required to reduce the filing fee to zero. If the number of signatures affixed to an in-lieu petition is 100 or more, the Director of Elections may use a random sampling technique for verification of the signatures. If an argument is selected as a "proponent's" or "opponent's" argument, the Director of Elections shall return any printing fee already paid to the individual or entity submitting the argument. Any registered voter of the City and County may sign an in-lieu petition for an argument for or against a measure. Each signature shall reduce the amount of the publication fee by the amount specified in Section 840 of this Code. A voter may sign both an initiative or referendum petition and an in-lieu publication fee petition; the petitions, however, must be separate documents.

(b) Any registered voter of the City and County may sign in-lieu of publication fee petition for more than one argument concerning the same measure. However, a registered voter may not sign an in-lieu publication fee petition for one particular argument more than once.

Each petition shall also include spaces for the voter's signature, printed name and residence address. Within seven days after the receipt of the petition, the Director of Elections shall notify the submitter of the petition of any deficiency in the in-lieu signatures submitted. The submitter may then, prior to the close of the period for the submission of arguments, submit additional signatures in compliance with the provisions of this Article governing in-lieu petitions, or pay a pro rata portion of the publication fee to cover the deficiency.

(b) If determination of the deficiency occurs after the close of the period for submission of arguments, the submitter, within 24 hours of being notified of the deficiency, shall pay an amount sufficient to cure the deficiency or the Director of Elections shall not publish the argument. In the event the Director of Elections does not publish the argument, the Director of Elections shall reimburse the submitter for any payment previously made.

(c) The submitter of an in-lieu petition may submit a greater number of signatures than required to allow for subsequent losses due to the invalidity of some signatures. The Director of Elections shall not be required to determine the validity of a greater number of signatures than that required to qualify the argument for publication.

(d) The author of an argument may submit both an in-lieu petition and deposit a fee which combined exceed the number of signatures and/or amount of money required to qualify the argument for publication, up to and including submittal of the full number of signatures and payment of the full fee. The Director of Elections shall thereafter refund any remaining portion of the fee not needed to cure any deficiency in the in-lieu petition caused by invalid signatures.

(e) If the number of signatures affixed to an in-lieu petition is 100 or more, the Director of Elections may use a random sampling technique for verification of the signatures. The random sampling shall include an examination of 100 signatures, or three percent of the total number of signatures submitted, whichever is greater. Upon completion of the verification of signatures in the sample, the percentage of signatures which are valid shall be applied and projected to the total number of signatures submitted. (Added by Ord. 429-97, App. 11/17/97)

In counting the number of words in any argument, the names of the individuals and entities subscribed thereto or submitted as co-authors of said argument shall be included in said word count.
